

# INCOMPLETE/INACCURATE DATA REPORT

The **first step** in data integrity is a Broker-to-Broker call asking for cooperation.

**When this fails**, please help us keep our MLS data current by reporting listings that do not have the correct status or information so that we may follow up with the listing office.

-----  
*Fill out as much info as possible below for the listing in question & mail or fax this form to the MLS office.*
